PERIODICALS IN THE CENTRAL LIBRARY

A S

Currently received in the Periodical Reading Room and kept bound on the shelves of the Lower Hall and Bates Hall.

SECOND EDITION. APRIL, 1873.

NOTE. — Under the term "Periodicals," this List includes Reviews, Magazines, Journals, etc., and the issues — except mere reports — of learned societies and other bodies; but it does not give Reading Room numbers to such publications, if they are not at this time regularly received as published; nor does it, as a rule, include the regular issues of public documents, or almanacs, or books published serially, or the like. Periodicals, long discontinued, and of which there are bound volumes in the Bates Hall, are also not mentioned.

Readers are requested to recommend for purchase such Periodicals as the Library does not already have. Slips for this purpose will be furnished, on application, at the Desk. It must be borne in mind, however, that *newspapers are not subscribed for*, except in a few peculiar cases.

** Special attention is called to the following law of the Commonwealth, — which applies to unbound periodicals as well as bound volumes, — and to the intention of the Library to prosecute under it: —

An Act for the preservation of books and other property belonging to public libraries.

Whoever wilfully and maliciously or wantonly and without cause writes upon, injures, defaces, tears, or destroys any book, plate, picture, engraving, or statue belonging to any law, town, city, or other public library, shall be punished by a fine of not less than five dollars nor more than fifty dollars, or by imprisonment in the jail not exceeding six months, for every such offence.

Approved February 26, 1872.

COPIES ARE FOR SALE AT THE DESK, AT FIVE CENTS EACH.

INDEXES TO PERIODICALS.

Poole's "Index to Periodical Literature" [B. H. Desk] is a convenient key to many published before 1852. See also Low's "Index to Current Literature," for 1860, 61 [6150.4], and the Royal Society's Catalogue of Scientific Papers, 1800-63, arranged by authors, [2140.8].

The following table will show the principal periodicals that have general or comprehensive *indexes*, covering a number of years, and also the shelf-numbers of the copies in this Library.

LIST OF PERIODICALS

Received in the Central Reading Room, and in the Bates Hall, with the shelf-numbers also of bound volumes (for circulation) kept in the Lower Hall.

*** This list includes some periodicals no longer received, but only *recently* discontinued.

EXPLANATIONS.—The number preceding its title denotes the box in the Reading Room in which a periodical is kept, while that following the title indicates the shelf-number in the General Library. If no Reading Room number is given, the periodical is kept only on the shelves, and must be asked for in the proper Hall, and in the same way as other books are. Volumes on shelves numbered 2110 and upwards, are in the Bates Hall; on shelves below 2110, in the Lower Hall.—Two stars, prefixed to the shelf-number, denote that the work was given on condition that it should not be taken from the Library building.—After the figures denoting the size of a periodical, indication is given of the frequency of publication; *y.* signifying yearly, $\frac{1}{2}y.$ half yearly, *q.* quarterly, *2m.* bi-monthly, *m.* monthly, $\frac{1}{2}m.$ semi-monthly, *w.* weekly, $\frac{1}{2}w.$ semi-weekly, $\frac{3}{4}w.$ tri-weekly, *d.* daily, *un.* at uncertain intervals.—A single dash indicates the omission of the preceding heading; a subsequent dash, the omission of a subordinate heading.—In the *headings* of titles, the German diphthongs ä, ö, ü, are written ae, oe, ue.
